PEACE STILL REIGNS.

And the Prospects for a War with Chili are Diminishing.
A RADICAL CHANGE OF SENTIMENT.
England Thought to Have Interfered to Bring the Pugnacious Little Republic to Its Senses—A Significant Answer.

The Unusual Activity in Naval Preparation.
WASHINGTON, Dec. 29.—There is excellent authority for the statement that orders have gone from the navy department to the builders of the Monterey to work night and day on that vessel and to get ready for service at the earliest possible moment. This will, it is hoped, be before February 15. Her two 12-inch guns which, by the way, will be the largest rifle cannon upon any vessel in the navy, will be sent to her without the usual number of proof rounds being fired. The guns are now at the Indian Head proving grounds, and orders have just been issued to prepare for shipment to San Francisco. The Bethlehem iron works and the Carnegie & Phipps Co. have been urged to hurry up the armor for the Monterey and have replied, to the great relief of the department, they are now ready to begin shipping them. So anxious is the department to expedite this work that the shipments will begin without waiting for the result of the acceptance test called for by the contract.

A large quantity of ammunition for rapid firing has just been contracted for. Still another important move is the day just taken to secure the early delivery of thirty Howell torpedoes. The first torpedo of this invention was successfully tried a few weeks ago. It was immediately accepted, and the contractor was not only urged, but given the assistance of officers of the department to hurry up work on the remainder. By the extra impetus given the work the completion of torpedoes is now about 50 per cent. finished. They will be shipped at once to the San Francisco, Charleston, Boston, New York, Bennington, Philadelphia, Newark and Concord. The four Reach vessels not having torpedo tubes will not be supplied.

With the activity also being displayed by the contractors of the navy department, there is reason to anticipate the early delivery of 100 of these torpedoes, and it may be said that the officials derive a great deal of comfort from the prospect of a lack of torpedoes is probably one of our weakest points. The activity of the past two days of the torpedo board, which has to do with the fitting out of vessels with this class of war material, is more substantial evidence of the steps being taken by the department to hasten work in every branch.

Sudden Change of Sentiment in the State and Navy Departments.
WASHINGTON, Dec. 29.—The changes in the situation of the Chilean navy, the kaleidoscope and instantaneous in their nature, and go from one extreme to the other. Nothing could be more radically different from anything else than the sentiment about the state of war and navy building Tuesday from that of yesterday. Then it was all bustle and the feeling was decidedly pugnacious. Now, the departments are comparatively deserted, and it is felt that the possibility of war is very remote.

Tuesday the corridors and ante-rooms were filled with statesmen and diplomats; yesterday there was not enough around to prevent the place from wanting an almost deserted look. Of news there was absolutely none, although something was promised from the state department later in the day, while rumors were almost as scarce. Senator Allison, of the appropriations committee, Representative Lodge, of house naval committee, and Representative Brewer, of North Carolina, were Secretary Tracy's visitors before the cabinet met, while Secretary Blaine had none at all aside from the department officials. It is generally understood about the state department that on cabinet days the secretary will see one, except by previous arrangement, so that casual callers on these days are infrequent.

Around the navy department it was hinted that the cause of the sudden subsidence of the war talk was due to the fact that congress could not be depended on for supplying the necessary funds to carry on a campaign against Chili, that, in fact, it probably would not give its consent to the declaration of hostilities against that country. What authority existed for this opinion was not stated—it seemed to be in the air, but was more substantial than mere wind.

Sentiment in the state department credited the peaceful condition of things to the influence of English interests in Chili, which in a business way are paramount. It was said that the Chilean authorities would be told plainly that England would not suffer them to jeopardize the property of its subjects in Chili, and that the government of Peru, as a conflict with the United States certainly could do, and that therefore, an amicable understanding

must be reached with this government. In this connection, the visit of Sir Julian Pauncefote, the British minister to Mr. Blaine, which immediately preceded the long conference between the secretary and Minister Montt, Tuesday, is regarded as significant. The cabinet meeting yesterday, at which all members were present except Secretary Blaine, was unusually large, and it is understood that Chilean affairs formed the principal topic of discussion. If any change of policy now occurred in the light of latest information from Valparaiso, it has not transpired.

Death of Bishop Loughlin.
BROOKLYN, Dec. 29.—Rev. John Loughlin, bishop of the Catholic diocese of Long Island, and one of the best-known prelates in the country, died yesterday afternoon. He had been ill but a week with a complication of diseases, and although his condition was yesterday morning considered serious by the attending physicians, it was thought he would pull through. All day he was perfectly conscious and recognized the many devoted priests who knelt around his bedside and of great vitality stood him to the last, and when the end came, shortly after a o'clock, he was in the full possession of his mental powers.

He was 74 years of age. He was born in County Down, Ireland, in 1816, and came to this country at the age of 7 years. He studied for the priesthood at the Albany academy, and finished at St. Francis Xavier, N. Y., where he was ordained a priest October 18, 1840, and was at once assigned to the diocese of New York. His first charge was a small parish in Utica, N. Y. On October 30, 1853, he was transferred to the diocese of Long Island, and was formally installed on the 10th of November. He was then 36 years of age. Last October Bishop Loughlin celebrated the golden jubilee of his priesthood, and the occasion was made a memorable event by the Catholics of Brooklyn.

A Sad Week.
STILLWATER, Minn., Dec. 30.—The Wisconsin Central passenger train from St. Paul was wrecked at Schulenberg's bridge, 3 miles north of this city, yesterday morning. The train was running 30 miles an hour. Just before reaching the bridge the tender jumped the track owing to the rails spreading, and the engine and passenger coaches were derailed. The engine and tender were completely wrecked. Only three passengers were on the train, Mrs. B. J. Sawyer and two small children of Ironwood, Mich. Mrs. Sawyer was seriously cut about the face and head, but escaped injury. The children escaped injury. Engineer J. J. Leiton had his right foot cut off.

The Annual Cloth Statement.
FALL RIVER, Mass., Dec. 30.—The annual cloth statement shows a production of 9,997,000 pieces, against 9,997,000 pieces last year. The stock on hand is 800,000 pieces, against 800,000 pieces in 1890. The sales of the year were 8,838,000 pieces, against 7,994,000 pieces in 1890. There are 1,575,000 pieces sold for future delivery, against 1,540,000 just this year. The total production for the year ending 1891, the average being 2.95, against 3.24, 3.01, 3.50, 3.34, and 3.70 cents, in 1890, 1889, 1888, 1887, and 1886 respectively. The highest price for standard goods during the year was 3.05 cents, and the lowest quotation ever known. There were 4,428,000 pieces of old goods sold, against 3,876,000 in 1890. The stock on hand in the country is 279,000 pieces, against 621,000 in 1890.

Started a Row.
KINGSTON, N. Y., Dec. 30.—A lively little row has been started here by the action of the health board at its meeting Tuesday in ousting from membership Dr. Robert Loughran, a leading physician in this section and prominent member of the O. A. R. Dr. Jacob Chambers was appointed in his place and at once sworn in. Dr. Loughran has engaged counsel who will bring the matter to court to test the legality of the board's action. It is claimed that Dr. Loughran's removal is a violation of the law relating to the removal of war veterans without cause.

From Niagara to New York by Water.
WASHINGTON, Dec. 30.—Representative Chipman, of Michigan, will bring before congress a bill to provide for the construction of a canal around the American side of Niagara Falls, and also of a similar waterway across the state of New York, from a point near Buffalo, to the Hudson river, so that vessels from the lakes may have free access to the tidewater. The projected canal is to be 100 feet wide, with an average depth of twenty feet, and will cost from \$10,000 to \$20,000. Mr. Chipman thinks such a canal would soon pay for itself.

A Post House, Safe Enough.
NEWARK, N. J., Dec. 30.—Father Holland, who has been attending the small patients at the post house, says the deaths that have occurred are due to the condition of the house they are kept in. The place is an old tumble-down barn, the priest says, and Manning, one of the first patients to die, gave up the ghost while a street of water ran on him from a hole in the roof.

COFFEES ARE WORN MORE EARLY THAN EVER.

Royal Baking Powder
Is Superior to Every Other
The United States Official Investigation
Of Baking Powders, recently made, under authority of Congress, by the Department of Agriculture, Washington, D. C., furnishes the highest authoritative information as to which powder is the best. The Official Report Shows the ROYAL to be a cream of tartar baking powder, superior to all others in leavening power (U. S. Dept. Agriculture's Bulletin 13, p. 599).

WAR ON THE BORDER.

Active Military Preparations on the Rio Grande
TO HOLD THE BANDIT GARZA IN CHECK.
In Order to Prevent International Complications with Mexico—Troops from San Antonio Being Hurried Forward—A Missing Troop.

SAN ANTONIO, Tex., Dec. 30.—Assistant Adj. Gen. J. P. Martin, of this military department, yesterday received a dispatch from Capt. A. V. Pollock, of the Twenty-third Infantry, in command at Fort McIntosh, giving information concerning the position of the troops stationed at that post. He states that troop A left that post on December 25, troop G is on the river about 25 miles above Roma, Tex.; troop I is on the river a day's march from the post en route to Carrizo, Tex. The other issued for troop K to the south, and to proceed by special train yesterday to the scene of the trouble at post San Antonio, was not carried out as the transportation facilities could not be secured. The troops' presence is urgently needed before that time.

Gen. Stanley yesterday received a dispatch from Maj. Gen. Schofield that he had been informed by the Mexican minister at Washington that Catavino Garza had established headquarters at the Prieto ranch in Starr county, Texas, and that he held a prisoner a prominent citizen of Mexico. The dispatch requests that Gen. Stanley will, in compliance with instructions heretofore given him by the secretary of war, employ all the means at his disposal to prevent any further violation of the neutrality laws.

Gen. Stanley stated to the United Press correspondent last evening that Second Lieut. Geo. Langhorne, of the Third Cavalry, is now scouting with his command of thirty troops in the vicinity of the Prieto ranch. Langhorne left for Ringgold four days ago on a scouting expedition through Duval and Starr counties, which are the strongholds of the revolutionists. Nothing has been heard from him or any of his command since his departure. The four troops, which as they are over a day's march from the post and in the midst of the Garza men grave fears are entertained for their safety.

There has been conclusive proof obtained that Garza has established recruiting stations at a number of ranches all along the border between Texas and Mexico. It is believed that Garza and his followers are recruiting men from Mexico at the unprotected fords of the Rio Grande and enlisting in his army. The United States troops are almost wholly powerless to prevent this flagrant violation of the neutrality laws, owing to the vast frontier territory there is to be covered. The revolutionists have evidently no fear from United States military, and therefore find it more congenial to carry on their recruiting operations on this side of the border.

Five arms and ammunition supplies in all the towns along the border and in Monterey, Mexico, have been quietly purchased by secret agents of the revolutionists at Monterey. According to a dispatch received here yesterday there is believed to be a large secret following of Garza who are ready to join him at the proper time. When the details of his campaign have been fully arranged.

There is a feeling of uneasiness among all classes of foreigners, and especially among Americans in Mexico, and many of them are leaving the country. The United States troops are a most serious phase.

United States troops are meeting with difficulties and encumbrances in their scouting operations, and in order to overcome this to some extent the mule train consisting of twenty-five mules and six experienced Indians has been ordered to the turbulent section from Fort D. A. Russell, Wyo., department of the Platte.

This force will be greatly augmented upon its arrival here and it is expected will render great assistance to the troops in the field. Nothing has been heard of Capt. F. S. Hardie, at the department headquarters here, but he is supposed to be still in pursuit of the revolutionists.

The Severeest in Years.
SAN FRANCISCO, Dec. 29.—The storm which has raged for over 24 hours on this coast, is the severest in years. It is a southeaster, and has brought a flood of rain on the lowlands and very heavy snow in the mountains. Reports received by Southern Pacific officials show that the snow in Shasta and Siskiyou counties is deep and the condition of the building of the railroad. By actual measurement it is 12 feet on the level, from the Siskiyou mountains near the Oregon line, to near Mount Shasta, the snow on the level is 12 to 18 feet. The Carleton Opera Co. was delayed eight hours by a snowslide in Cow Creek canyon. The snow is wet and making it hard to handle. At Yreka several buildings were crushed in by the weight of the snow.

Nearly all coasting vessels are laid up, as navigation has been closed in the Gulf of the south coast. The steamer Whitehorn went ashore last night at Little River, but all hands were saved.

These excursions are to be promoted by the London and North Western railway company for the promotion of the interests of education of the working classes.
—Squawmen and Half-Breeds Indignant.
PIKE, S. D., Dec. 30.—The squawmen and half-breeds in this vicinity held an indignation meeting Monday night to protest against the decision of the secretary of the interior and assistant attorney-general. The decision will probably affect 1,000 persons at the Cheyenne River agency alone, and it will send 300 Indian allotments made to supposed Indians in the Pierre land district.
It is anticipated that there will be a great deal of trouble over this decision, which the Indian sympathizers are at ready to oppose as adding one more outrage to the "century of wrong."
The meeting decided to send a representative to Washington, and lay the matter before the president and congress. It was also decided to resist by force, if necessary, the attempts on the part of the whites to take their land from them.
Remarkable Rescues.
Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption that no medicine could cure her. Her doctor ordered Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued to use and after taking two bottles found herself sound and well, now she does her own housework and is as well as she ever was.—Free trial bottles of this Great Discovery at King & Wood's Drug Store, large bottles 50c, and \$1.00.

IN THE PRIZE RING.

Joe McAuliffe Wins a Battle From Patsy Cardiff.
AUSTIN GIBBONS WHIPS ANDY BOWEN.
Both Battles Being Long and Well Contested—Tom Callaghan, "The Irishman," Matched to Fight Cal McCarthy in February.

Joe McAuliffe Whips Patsy Cardiff.
SAN FRANCISCO, Dec. 30.—The well-known heavy-weights Joe McAuliffe, of San Francisco, and Patsy Cardiff, of Minneapolis, fought for a \$2,500 purse last night at the California Athletic club. Both men were in the pink of condition. McAuliffe weighed 215 pounds, and Cardiff 180. Con Riordan, M. McAuliffe and the ever faithful Martin Murphy were behind McAuliffe, while Daughy Neeldham, Jim Carr and M. O'Donnell seconded Cardiff. Hiram Cook acted as referee. McAuliffe won the fight in the fifteenth round.

Gibbons Whips Bowen.
NEW ORLEANS, Dec. 30.—The fight last night between Andy Bowen and Austin Gibbons was the first of any prominence that has been fought in the arena of the New Metropolitan club, which is a ladder against the famous Olympic for public favor. The contest was for a purse of \$2,500, of which \$500 went to the loser. The fight was under the club rules and the weight limit was 153 pounds. Gibbons won in the forty-eighth round.

Callaghan and McCarthy Matched.
NEW YORK, Dec. 30.—Tom Callaghan, "the Irishman," who recently knocked out Billy Kenny, the ex-amateur heavyweight champion, was yesterday matched in the Illustrated News office to fight Cal McCarthy, of Jersey City, before the Olympic Athletic club of New Orleans, for a \$3,000 purse.
The terms agreed upon after a long talk were 115 pounds, weigh in at the ring-side, \$500 to the loser.
Callaghan's manager, Joe Early, held out a long time to have the weighing-in one hour before the fight, or for the winner to take all, if he conceded to McCarthy's demand to weigh in at the ring-side. McCarthy would make no terms except those that he first stated, and after some time Early yielded, and to McCarthy in everything. The fight is to take place in February.

WILL RESORT TO DYNAMITE.
A Posse of United States Marshals Repulsed by Moonshiners.
BIRMINGHAM, Ala., Dec. 30.—On Sand mountain, in De Kalb county, yesterday morning, a desperate battle was fought between a posse of twelve deputy United States marshals, under the leadership of Deputy Robert Charlson, and a party of moonshiners. During the night the posse surrounded a noted illicit distillery, and after daylight made an attack on it.
The distillery was surrounded with rock walls, provided with a coil of wire and out of which guns were pointed. Over 100 shots were fired in the battle that followed. The officers were repulsed and driven off. Kirk and Sprouse, two noted moonshiners, were killed, and Deputy Jackson fatally wounded. The officers went to Fort Payne, where they will procure dynamite, and to-day return and blow up the distillery.

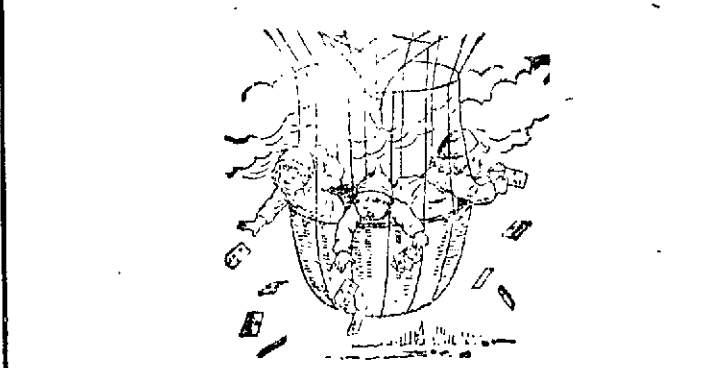

The Chicago Herald Receives Its Friends in Its New Home.
CHICAGO, Ill., Dec. 30.—An informal reception was tendered last evening to the members of the press by the Chicago Herald, and right royally were the guests, who came from all parts of the country. The splendid music of Hand's orchestra and Tomasso's mandolin artists resounded throughout the Herald's handsome new home and added not a little to the enhancement of the evening.
Luncheon and punch were served, and after a visit throughout the building, which was thoroughly enjoyed, a short address was made by Melville E. Stone, in which he said the Herald had, without doubt, the grandest, most convenient and best-equipped newspaper office he had ever visited. Many telegrams of regret and congratulations were received from prominent newspaper men throughout the country.

Colored Educators in Convention.
NASHVILLE, Tenn., Dec. 30.—Yesterday morning at the Spruce-street Baptist church (colored), the American Association of Educators of Colored Youth was called to order by President James M. Gregory, of Washington.
A paper on "Colored Journalism; Its Influence," was read by I. Garland Fear of Jackson, Tenn. for a series of lectures on the "World's Fair" and the "World's Workmen" to be held in London. These excursions are to be promoted by the London and North Western railway company for the promotion of the interests of education of the working classes.

Some months ago it was announced that Bob Ingersoll was broken down with some malady of the throat, and that he would never be able to speak in public again. This was the dictum of a set of doctors, but another set who examined his throat pronounced the trouble to be a small watery excrescence which was removed, and Bob's throat was as well as it ever was. About half of the so-called bronchial troubles come from some trifling cause which, if attended to, can be cured, but if harshly dealt with by gargles and the like, tend to inflame the tissues and make the trouble chronic. Most of the moladies can be cured by using Reid's German Cough and Kidney Cure. It is unequalled for its instantaneous action upon the throat. It cures the severest cold, and heals all lung troubles, asthma, catarrh and maladies of that sort. For sale by all druggists.

WEDNESDAY EVE., DEC. 30, 1891.

GEN. J. WARREN KRIEGER who is prominent in Ohio, and national politics and in Chicago, last night, that John Sherman would be re-elected to the United States Senate.

If the Democrats get into serious factional rows in Congress Benton McMillin may prove the panacea for restoring party unity, it is said that he commits a poem to memory every morning before breakfast.

It is reported that Edward M. Field has taken a drink of whisky, which means that he is not yet anywhere near "starved to death." Plenty of liquid stimulants would soon set his nerves straight again, and no more would be heard of him about his inebriety. He should be allowed to have a pint in his cell all the time.

The American Tin Plate Review is the name of a paper just started in Pittsburgh, Pa., and the first in the United States to be devoted exclusively to the giving of information and securing the advancement of tin plate, sheet iron and galvanized iron industries. It is well edited and will serve as a medium to concentrate correct information concerning the development of the block tin and tin-plate industry in America.

For the ten months of 1890 to Nov. 1, the total imports into this country of articles of steel and iron manufactures were 664,080 gross tons, and of iron 1,050,000 gross tons, making a total 1,623,749. For the ten months of 1891 to Nov. 1, the imports of the manufactured articles were, in gross tons, 459,727 and of iron 777,185 a total of 1,236,912, being a reduction of 386,837 tons in favor of American working men.

Some Washington correspondents write that Cleveland and Harrison have the same size. That may be, but before you mark Cleveland down on this account remember that Benny wears a hat over his shoulders. The queer fit it is to be charged up to Grandfather (Deceit) Review.

It seems to be impossible for the Review to be fair in important partisan matters like the above. It knows well that the reason Cleveland's hat is not worn over his shoulders is that he wears it over his neck which obstructs the passage of his hat to his shoulders.

The following most sensible illustration of the way protection operates should be read by every careful and honest voter:

"Two men live on adjoining farms, but the line between them happens to be the boundary line between Vermont and Canada. Both raise hay for the Boston market, and sell it at the same time, to the same man, at an equal price, but with this difference: That the Canadian farmer has 20 acres dedicated for each bushel of his crop at the custom house, the money going into the United States treasury to pay the national debt, provide for the expenditure for the navy of the nation, or meet the current expenditure of the government. Who pays the tax? The Canadian farmer is very decidedly at the expense. That is the one. Suppose those farmers, instead of living on adjoining farms, are a hundred or a thousand miles apart, does not the Canadian farmer have to pay the tax for the privilege of sending his produce to the American market? The same principle operated in other lines, and the American farmer and the American manufacturer are alike benefited by the system now in vogue."

Democrat What-Should-We-Do.

The latest reports from Washington indicate that the Democratic House of Representatives has become apprehensive of the results of the course it started out to follow relating to the tariff. They have become fearful that they may lose votes by the Springer method, and upon a count of noses it is believed that a count of noses in the House will result in a count of noses in the House.

We say that the latest advice from the capital indicates, but the chances are that these reports grew out of the uncertainty among Democrats as to what they shall, by way of tariff bill, say they are willing to chance as a declaration of Democratic belief. At the first they were quite certain they could dodge the whole question by framing a bill of little bills and advocating their passage; but after the snafu of the Speakership battle has cleared away they are not so sure about it and the question of a full bill has again come to the front.

The latest question which is put before the party, "What shall we do?" Democrats have never got beyond this question. They have not the moral courage to plant the party upon a firm and unquivering base of well-defined principles. The question of what is best for the people never troubles the party. It is the question of how to get there that commands the devotion of the average Democrat.

A year ago Democratic leaders were advocating the free and unlimited coinage of silver. It was in many of the state platforms in 1890 and the representative states almost to a man supported free coinage in the House and Senate. In 1891 it was placed as a cardinal principle in the Democratic platforms of Ohio and Iowa, and it was in Maryland and New York, and in the whole of the country. Leaders and all, have made a complete flop, and, except in the South, say that the advocacy of free silver would lose the party votes. They abandon free silver not as a principle, for it, like other questions taken up by that party, never amounted to a principle. It was sponged as an answer to the question, "What shall we do to get votes," and abandoned in the same way. That party of impracticables does not sleep over the welfare of the people, but devotes its time to devising schemes to get their votes.

It is very true, a farmer's new mow, misrepresenting the effects of protection, small tariff bills or a general tariff bill, or as a last resort, playing a game of poker with a man like Cockrell, but always with a view of getting votes.

Democrat's Financialing.

Peoria Transcript: Under Tammany rule the debt of New York City is \$98,147,782.92. This debt is certainly a metropolitan problem. The Mayor and Express have been making some comparisons and finds that the net indebtedness of the six New England states, thirteen southern states, twenty western states and six territories combined amounts to \$94,196,467, or \$4,986,315 less than the net debt of New York City alone. Counting in the five middle states, the net indebtedness of all the southern states, is \$96,014,426, or \$3,127,858 less than the net debt of the metropolis. Taking all the states and all the territories, their total net indebtedness is \$115,525,888, or but \$16,384,151 in excess of that of New York City. Going outside of the country it is found that the net debt of Sweden, Norway and Switzerland taken together amount to \$80,107,484, which sum New York's net debt exceeds by \$10,034,248. The net debt of the German Empire proper is \$77,577,710; of the state of Bremen \$16,217,400, and both together come to \$93,605,110, or \$5,346,618 less than New York City.

Democrat's Financial Statesman-ship.

New York Press: It is strikingly significant of Democratic leanings on the financial question that the Fifty-second Congress should hardly have been in session a week when so prominent a leader of the party as Senator Harris, of Tennessee, introduced a bill "to repeal all laws discriminating against the circulation of state banks." Doubtless the title of Senator Harris' bill has a fair and fetching sound in the ears of the younger generation of Democrats. But to citing a zero old enough to remember what a cause was the wildly fluctuating currency of the state banks, the proposition sounds about as sane as the bills which a mock parliament of innocents in an asylum would discuss—bills, for instance, to abolish railroads and make people travel by stage, or to do away with electricity, gas and coal oil, and compel the public to burn candles again.

Sudden Deaths.

Heart disease is by far the most frequent cause of sudden death, which in three cases out of four is unsuspected. The symptoms are not generally understood. There is a subtle, creeping, distress in the chest, back or shoulder, irregular pulse, asthma, weak and hungry spells, indigestion, swelling of ankles, nervousness, depression, dry cough and smothering. Dr. Miles' illustrated book on heart disease free at W. C. Armstrong's who sell and guarantee Dr. Miles' New Heart Cure, and his Restorative Nervine, which cures nervousness, headache, sleeplessness, effects of drinking, etc. It contains no opiates.

It is stated that in 1890 the number of persons killed in India by snakes was 14,412, while the number of snakes slaughtered was 510,659.

Startling Facts.

The American people are rapidly becoming a race of neurotics. The best remedy is Chamberlain's Cough Remedy.

Alphonso Hemphing, of Butler, Pa., writes that when his son was speechless from St. Vitus dance, Dr. Miles' great remedy cured him. He writes: "My son, J. R. Miller, of Valparaiso, and J. D. Taylor, of Loganport, Ind., each gained 20 pounds from taking it. Mrs. H. A. Gardner, of Vernal, Ind., was cured of 40 to 50 convulsions a day, and much headache, dizziness, backache and nervous prostration by one bottle. Little bottles and free samples of Chamberlain's Cough Remedy are sent to all who request them. Write to W. C. Armstrong, who recommends and guarantees this unequalled remedy.

WILLIAM JACKSON, of Ellsworth, Me., has lost six wives within the past fifty-five years, the last having died a few weeks since.

Good Advice.—The Editor of the West

March, Iowa, writes, gives his readers some good advice. "We have used Chamberlain's Cough Remedy in our family in cases of sudden colds and sore throats, and it is all that is claimed for it. One bottle or less if taken according to directions will, we believe, effect a cure in any ordinary case and save the expense of large bills. Especially in cases of colds and sore throats, the children are threatened with croup, as it will afford immediate relief, if taken in time, which can always be done if the medicine is kept on hand as we are convinced it should be. AN OLD-FASHIONED IDEA

It used to be thought that the only way to save money was to "bait it down" in an old powder pot or something, a little at a time, as it could be spared. No one over thought of getting interest on his savings or of making the money in the pot earn anything. It is not so now. People have grown into better ideas.

So small a sum as 40 cents per month may be saved and profitably invested in the Equitable Building and Loan Society of Peoria. Name as high as \$120 per month may also be saved and invested. Every dollar earns the same as every other dollar. No preferred stockholders. Women and children may carry stock. It will teach boys and girls the value of a dollar, properly handled.

The Equitable is a national organization. Investigation and correspondence solicited.

THE LORD WILL SETTLE IT.

All Quiet at Janes' Chapel—A Talk with a Member.

At the close of the usual nightly religious service at Janes' Chapel last night, conducted by Rev. A. Bradshaw, the Republican reporter met two members of the congregation while they were on their way home.

"Well, what did you do about the lawsuit as to the church property?" asked the reporter.

"What law suit? We don't know anything about it."

"Don't you know that the trustees representing the congregation have taken steps to get possession of the church property, and that Rev. Bradshaw has been served with notice by Sheriff Perl to appear in court at the January term?"

"Oh, yes; we know about that. But there was not a word spoken on the subject at the service to-night; we are not worrying about it. The Lord will take care of us. If He says we shall keep the property, we will keep it. If He decides that we shall give it up, we will do so. There will be no row about the case."

Bradshaw then one of the gentlemen stated that he understood that the property belonged to the Chapel congregation, and that all along there have been at least seven-tenths of the old members of the congregation who had refused to worship anywhere but at the Chapel. He felt that the people out there who ought to have a chance, and they would continue to worship there until driven out.

Both gentlemen seemed to be in a surprisingly submissive state. They had concluded to leave it all in the Lord's hands, and no matter how the trial results they will do that anyhow, as will also the opposition.

The Drama To-Night.

The Agnes Wallace Villa company has arrived and will appear at the Grand to-night in "The World Against Her," which is a play in five acts, all of which are arranged in the English melodramatic style, to secure change of scene and picturesque contrast, and every act ends with a proper crisis or situation. The points of special interest to the audience were the scene of the meeting of husband and wife when the husband comes to take away the child; the attempted abduction of the child on the highway by the husband's agents; and the scene by a kindly showman and his wife; the scenes in the London garret and in the corner's cellar were also realistic, graphic and intense.

At the Fat Stock Show recently held in Chicago we purchased of Wm. S. VanNatta, of Fowler, Ind., the noted Hereford breeder, the prize cross-bred Hereford and Sussex steer under one year old; of John Hudson, Mowqua, Ill., the 1st and 2d prize yearling Devon steers. These steers are not large but are ripe and thick in flesh and will produce a quality of beef as choice as any we have ever offered you. In addition to the above we have a 3-year-old brown Swiss Heifer from the herd of Abe Bourquin, Nokomis, Ill.; and of D. P. Keller, of Macon, five choice 2-year-old Polled Angus Heifers. Our patrons may rest assured that the high standard of excellence of our holiday beef will be maintained in what we shall place on our blocks this season.
